Madurai, TN | 8098703858 | ushauma0217@gmail.com

Executive Summary

Creative and detail-oriented UI/UX and Graphical Designer with a strong foundation in user research, wireframing, and prototyping. Proficient in industry-standard design tools like Figma and Adobe Creative Suite. Eager to leverage my internship experience in designing user-centric, interactive mobile applications to deliver intuitive and engaging digital experiences.

Technical Skills

- **Design & Prototyping Tools:** Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator, Canva
- **Core Skills:** UI Design, UX Research, Wireframing, Prototyping, Graphical Design
- **Video & Media:** CapCut, Video Editing
- **Web Technologies:** HTML, CSS

Soft Skills

- Problem Solving & User-Centric Thinking
- Communication & Teamwork
- Time Management
- Adaptability

Professional Experience

ULTRAGITS

November 2025 – December 2025

Role: UI/UX Design Intern

- Completed an intensive one-month internship focusing on UI/UX design principles, wireframing, and interactive prototyping.
- Successfully delivered high-fidelity prototypes and user-centric layouts within a tight one-month timeframe.

Projects

Health and Hygiene Food App

Figma, UI/UX Design

- Designed user interfaces and wireframes for a comprehensive health and dietary food application using Figma.
- Prototyped personalized user flows, integrating features for calorie-based recipe suggestions and age-specific dietary filtering.
- Designed an interactive video player UI, incorporating integrated cooking timers, a 'duet' feature, and detailed instruction overlays.
- Developed a dynamic ingredient scaling interface that automatically calculates exact food measurements based on the number of servings or family members inputted by the user.
- Improved the app's usability by designing clear, intuitive features for complex nutritional scaling.

Education

Bachelor of Computer Science and Engineering (B.E)

Nov 2022 – May 2026

SBM College of Engineering and Technology
